

This year three groups of ten people went to Tenerife. The internship took place from May to September. Trainees lived and worked at the Tamaimo Tropical hotel in positions such as receptionists, cooks, animators and waitresses. In their free time they familiarised with the culture of this beautiful place.

THE THIRD GROUP'S EXPERIENCE

Everything began on 12 August 2018 but it's not the whole truth...

First, we had to take part in language courses (English, Spanish) and we got to know some information about Tenerife. Then we had to pack all our things to small bags. It was extremely difficult. Finally, we got to the airport in Cracow and spent long 6 hours on the plane. We were very excited.

After the landing, we went to our hotel. We left our baggage and went to dinner and met with the manager. After that we did some sightseeing and swam in the ocean.

The next day we had to go to work. We worked in groups. Two of us worked at the reception desk, two girls worked as animators, two friends worked in the kitchen, and the last group worked as waiters and waitresses.

Our work wasn't as easy as we had thought before, it was extremely difficult. We had to learn many new things, cope with people we didn't know, and spoke English and Spanish.

Even though we were tired we were also happy because we had trips and spare time. During the first weekend we went to Loro Park and we had a lot of fun. We saw a lot of different animals and shows with dolphins, killer whales and seals. It was the biggest attraction.

The second weekend we spent on the beach and in the ocean. It was definitely relaxing, especially before the next working week.

On the third weekend we went to Siam Lark. It was something! It was the biggest aquapark in Europe. We could try to slide many different water chutes. It was the most breathtaking experience!

The last trip was very surprising for us. We were sailing and we had the opportunity to see dolphins living wild. It was extremely fantastic to see something like that.

During the last Saturday we had to pack all our things because the next day we were leaving. It was very sad for us because we felt connected with this place and the people we met.

This month was a great adventure for us. We learnt many new things, met a lot of people, saw beautiful places and worked a lot with amazing people. I hope I will visit this place again next year.
